Art Unit: 1755

This action is in response to applicants' phone call of 23 May 2005. The <sup>time</sup>~~time~~ of response has been restarted.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 15 is rejected under 35 U.S.C. 102(a) as being clearly anticipated by the Derwent abstract for KR 2003060697.

This abstract teaches a phosphor having the formula  $(\text{Ba}_{1-x}\text{Sr}_x)_2\text{SiO}_4:\text{Eu}^{2+},z\text{M}$ , where M can be Ce, x is 0-1 and z is 0.0001-0.1. This formula falls within that claimed. This abstract teaches the claimed phosphor.

Claim 8 is only allowable because its effective filing date is before the publication date of KR 2003060697, which teaches the claimed phosphor. Since the subject matter of claim 15 has an effective filing date after the publication date of KR 2003060697, the fact claim 8 is allowable does not make claim 15 allowable.

The fact calcium is not taught by the abstract is immaterial since claim 8, from which claim 15 depends, teaches z can be 0 and thus it teaches an alkaline earth silicate free of calcium. The rejection is maintained.

Claims 8-14, 16, 17, 23, 24, 26 and 27 are allowable over the cited art of record.

Claims 8-14, 23, 24, 26 and 27 are allowable for the reasons given in the previous action. Claims 8-14 has the effective filing date of 17 May 2003 and thus the Derwent abstract for KR 2003060697 is not prior art over these claims. Claims 16 and 17 are allowable over the cited art of record since there is no teaching or suggestion of an alkaline earth metal silicate that contains strontium and calcium and optionally barium.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
